Re: FDA Docket No. 98N-1265

To Whom It May Concern:

We oppose the Draft Memorandum being proposed by the FDA. In particular, we object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

What is in the best interest of the individual, and his/her right to choose, will be solely in the greed/financial interests of the pharmaceutical houses who desire to dictate a "one size fits all" drug, even if that medication is ineffective, produces health risks, and may contribute to an individual's demise.
